

PROJECT

Kali und Salz, Werk Werra,
Standort Wintershall

LOCATION

Untereibzsch, Germany

CUSTOMER

DSD, Delitzsch

DESIGN PRESSURE

PN 10

DIAMETER RANGE [mm]

DN 50 – DN 700

PRODUCT

Fiberdur ISO CSEP 10/16

APPLICATION

Process water

CONSTRUCTION DATE

2013/2014

END USER

Kali und Salz

DESCRIPTION

This facility was installed at the plant in Heringen.

At the location of Wintershall of K+S Kali GmbH, plant Werra, there were implemented different projects belonging to a package of environmental measures in Werra. For these projects additional pipe systems were delivered. The pipe systems in diameters DN 250 and DN 500 for saline solutions were installed on new pipe bridges.

SCOPE OF SUPPLY

- 4.500 m pipe DN 100 - DN 500 ISO CSEP with more than 400 accessories

ADVANTAGE

- Quick installation
- Long lifetime
- Corrosion resistance
